31 mph isn't the only reason
it's miles ahead of any other tractor.

Sure. A Fendt tractor is fast, but it's more than that. It's stable thanks to a one-of-a-kind active suspension system. It's responsive thanks to an advanced braking system. And it does not need to waste a second thanks to the world's first, most tested and seamless Continuously Variable Transmission.

Throw in our 3-year or 3,000-hour Fendt Gold Star Customer Care plan, and there'll be nothing slowing you down. You'll get the job done right with time to spare.

Take a look at a Fendt tractor first, before the other brands. You'll be able to wave to them as you pass them by.
